

# Job Pursuit

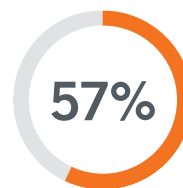

Effective and efficient job seeking for English speaking candidates

In this course we assist you in contacting and establishing meetings with specific companies. The right match for you and with companies that we know are open to English speaking candidates. We also teach you how to “seek jobs with a Danish mindset” – targeted the recruitment behavior of Danish companies

## 5 workshops, 3 meetings and lots of company contact during the 6 weeks

We review the following topics during the workshops:

- CV & Competences
- Application
- Job Interview
- Pitch & Unsolicited Application
- Networking & Phone Contact

*“It is difficult or even impossible to get a job in our company, if you only speak English and not Danish”*

All workshops are held according to our concept. Every workshop starts with providing and sharing of knowledge, we then continue with exercises and conclude with translating the knowledge into action.

## Course example

## Candidate benefits

In our CRM-system we have more than 15.000 companies that we regularly are in touch with, and we ensure that all companies which employ English speaking people are registered in the system. This is a great advantage for you as an English speaking job seeker.

Furthermore, you have access to:

- An English version of our handbook “Moderne jobsøgning” (given 5 stars)
- Our log-in area with templates, tools and inspiration
- The company database Bisnode, where candidates find relevant companies

The course is held at our Copenhagen Office at Samsøgade 13, 2100 København Ø.
